

CS1/07-0184 P1700 Liaison report from Eva Kuiper for CS1 August 2007 meeting

The group has become active again and held several meetings since March. The meetings were onsite only, however there is a mailing list to indicate what activities are taking place. This list had gone quiet and became active again a few months ago.

The documents and email archive are posted at <http://www.issaa.org> The latest document version is 21.0. Two sections, Normative and Informative, are posted on their web site. CS1 members should review these documents. If there are concerns about the documents, CS1 should send a liaison letter to them at the next CS1 meeting.

The next meeting for ISSAA is August 22, 2007.
