

CS1/07-0244 OpenGroup Liaison report from Eva Kuiper for September 2007 CS1 Meeting #11

Ian Dobson, Director – Security Programs, The Open Group, will be presenting at the WG5 Pre-Meeting on September 30, 2007. The presentation title is "The Open Group Perspectives on Identity, Identifiers, and Identity Management".

The OpenGroup will be hosting an Enterprise Architecture Practitioners Conference in Budapest on Oct 22-26. On the Tuesday and Wednesday there will be Security tracks (again see the program) which address key topics challenging information security practitioners today:

- Architecting Trust**
- Architecting Secure Communications**
- Identity and Access Management in Distributed Environments**
- Architectures for Secure Data Management**
- Security Architecture and Governance**
- Securing your SOA Environment**
