

Approved TG Resolution of Comments on Project 1575-D -Application Profile for Point-of-Sale Biometric Verification/Identification

Date: December 14, 2006

M1/06-1090

Origin	Document Location	Comment Type	Comment (Justification for Change)	Proposed Change	Editor's Proposed Disposition
CMT	7	T	The use of ANSI/X9 X9.84 may not be appropriate. Template protection is afforded by CBEFF, and CBEFF may actually be the preferred biometric container standard.	Change Clause 7 to: POS use of biometrics shall follow biometric data protection techniques in INCITS 398-2005 - Information technology – Common Biometric Exchange Formats Framework (CBEFF) to safeguard the biometric data defined herein for confidentiality, integrity and availability, in accordance with local, regional or national policy considerations.	Accept with modification. Change: Change Clause 7 to: POS use of biometrics should follow biometric data protection techniques in ISO 19092-2006 "Financial services - Biometrics - Part 1: Security framework" to safeguard the biometric data defined herein for confidentiality, integrity and availability, in accordance with local, regional or national policy considerations. Remove normative reference to ANSI/X9 X9.84 in clause 3. Include in bibliography ISO 19092-2006 Financial services - Biometrics - Part 1: Security framework.
