

W1.1 Text & Line Quality teleconference summary 1/13/05

Attendees: Mark Robb, Don Kozak, Dale Mashtare, Edul Dalal

- 1) Please welcome Don Kozak of Lexmark as a member of our team.
- 2) We are considering making the focus of the TQ evaluation on host-based fonts only (with host rendering and/or device rendering), with no testing of device-resident fonts.
- 3) We plan on making the test patterns as PDF's with embedded fonts.
- 4) All characters on the test patterns will be W1 fonts only (no other fonts such as Times New Roman).
- 5) Wencheng Wu and I have submitted a paper on Line Quality to the EI05 Symposium, based on work we have previously done at Xerox. A copy is Posted as document w11050003 on the INCITS website:
