

Summary of ISO WD 19751 Text & Line teleconference Thursday 1/26/06

Attendees: FG, AH, JB, EBS, DM, ED

1. New members: We welcomed a new member to the ISO WD 19751 Text & Line Quality ad hoc team: Prof. Elisa H. Barney Smith of Boise State University. Another new member, Myriam Quiroga of HP Spain, could not attend this week's teleconference but will hereafter.

Regrettably, Bill Davis of Ascender Corp. has withdrawn from the team.

2. The team had earlier requested license to use US patent 6,608,932 (owned by Xerox) which covers Analytical Fonts and their use in a system for instrumented measurement of text quality. ED notified the team that, after administrative review, Xerox has agreed in principle to license the patent. A formal agreement with ISO/IEC is expected to follow.

3. FG provided feedback from EI-06 IQ conference.

4. Test pattern revision discussion: awaiting next revision from MR.

Action item:

- 1) All: review the test pattern, particularly analytical characters, for completeness.
- 2) Elisa to send her recent relevant papers to the team.
